STORZ
KARL STORZ – ENDOSKOPE

Invitation

Dear colleagues,

Facial trauma surgery requires not only a profound understanding of complex craniofacial anatomy but also the ability to translate this knowledge into precise and reliable surgical techniques. While theoretical foundations are indispensable, true expertise is ultimately developed through structured, hands-on experience.

It is my great pleasure to invite you to the **Basel Cadaveric Facial Trauma Course**, a SGMKG pre-congress course held in conjunction with the SGMKG Annual Meeting 2026 in Basel.

This course is specifically designed for advanced residents as well as young board-certified and senior surgeons seeking to further refine their skills in cranio-maxillofacial trauma surgery. It combines state-of-the-art lectures with extensive hands-on training in the **IBRA Cadaver Lab Basel**, offering an exceptional learning environment with high-end anatomical specimens and modern infrastructure.

Participants will gain practical experience in the management of orbital, nasal, NOE, zygomatic, and mandibular fractures, including condylar fractures and aspects of mandibular reconstruction.

Thanks to the generous support of our industry partners and the voluntary commitment of our faculty, we are able to offer this cadaveric course at a remarkably accessible fee.

We look forward to welcoming you to Basel for an intensive and highly practical learning experience.

Kind regards

PD Dr. Dr. Lukas B. Seifert, MME

Course Director

Department of Oral and
Cranio-Maxillofacial Surgery
University Hospital Basel

Faculty (in alphabetic Order)

PD Dr. Dr. Benito Benitez
University Hospital Basel

Dr. Jeannine Blatter
CHUV Lausanne

Dr. Dr. Raphael Ferrari
University Hospital Zürich

Dr. Dr. Laurence May
CHUV Lausanne

Dr. Dr. Simon Meyer
University Hospital Basel

Dr. Dr. Joachim Polligkeit
University Hospital Basel

Dr. Dr. Marc Precht

PD Dr. Dr.
Maximilian Wagner
University Hospital Zürich

Scientific Program

Tuesday, 17 November 2026 | Medartis Auditorium

15:00	Registration
15:15	Welcome – L. Seifert
15:25	Orbital fractures – M. Wagner/M. Precht
15:50	Nasal / NOE fractures – L. May/J. Blatter
16:15	Zygoma fractures – L. Seifert
16:40	Condylar and Condylar head fractures – B. Benitez/J. Polligkeit
17:05	Coffee Break
17:30	Endoscopic condylar fracture treatment – R. Ferrari
17:55	Extended mandibular traumatology – S. Meyer
18:20	Patient-specific implants – Medartis Demo
18:35	Apéro & Case Discussions

IBRAInstitute

Wednesday, 18 November 2026 | IBRA Cadaver Lab

08:30 – 08:45	Safety briefing – R. Novo (IBRA)
08:45 – 09:00	Instrumentation & implant systems introduction – Medartis
09:00 – 10:00	Orbital fracture treatment and approaches Short demo (10 min) + extensive hands-on training Faculty: M. Wagner
10:00 – 11:00	Nasal / NOE fracture treatment and approaches Short demo (10 min) + extensive hands-on training Faculty: L. May
11:00 – 12:00	Zygoma fracture treatment and approaches Short demo (10 min) + extensive hands-on training Faculty: L. Seifert
12:00 – 13:00	Lunch Break
13:00 – 14:00	Condylar fractures and approaches Short demo (10 min) + extensive hands-on training Faculty: J. Polligkeit
14:00 – 15:00	Endoscopic condylar fracture treatment Short demo (10 min) + extensive hands-on training Faculty: R. Ferrari
15:00 – 16:00	Mandibular angle fractures Short demo (10 min) + extensive hands-on training Faculty: L. Seifert
16:00 – 17:00	Mandibular reconstruction and approaches Short demo (10 min) + extensive hands-on training Faculty: B. Benitez
17:00 – 18:00	Free practice Faculty supervision
